## PROJECTS

- **HomesteaderIndia**
  - **Language/Technology: Java Spring Boot**
  - HomesteaderIndia is a farming project built using the Spring Boot Framework and Postgresql as a database with three modules: farmer, agroagency, and admin.
  - It is a web-based platform offering crop, fertilizer, and vegetable solutions, along with soil analysis, live weather updates, and agriculture training services for farmers and agricultural students.
  - **Link:**<http://37.44.244.182:8081/homesteader/>
- **Online Jewellery Shop**
  - **Language/Technology: Java JSP-Servlet**
  - It is a web application with distinct admin and user modules using JDBC, JSP, and Servlet.
  - Designed user-friendly interfaces for seamless management and shopping experiences.
